Postal address:
United Kingdom
Email: shepotylo@aston.ac.uk

Qualifications

PhD, University of Maryland
1 Sep 2000 → 1 Dec 2006
Award Date: 1 Dec 2006

Research Interests

I am an applied economist focusing on International Trade and Productivity. The central question of my research is how do firms, industries, and countries grow by integrating into the global markets? I advance research on the effect of trade policy and globalization on economic performance on three levels: looking at firms within a partial equilibrium model of an industry, analyzing bilateral trade flows within a general equilibrium model, and studying global spatial spillovers.
